

# NA-10UT

**Direct-drive, 1-needle, Bottom-feed, Lockstitch Machine with Double-capacity Hook with Automatic Thread Trimmer.**

### Needle thread clamping

The needle thread device is standard equipment. As a result, the needle thread at the start of sewing does not come out on the cloth, so the start of sewing beautiful finished seams. Operators use scissors less often and can prevent damage to the material caused by thread picking.

### Direct-drive motor is installed

The direct-drive motor system has been adopted by all of the sewing system with a thread trimmer. As a result, the sewing machine starts up swiftly and promises increased stop accuracy, thereby demonstrating improved responsiveness.

### Widely applicable to the sewing of heavy-weight materials

The machine for heavy-weight materials has the maximum stitch length as long as 7mm, thereby making the machine widely applicable to the sewing of such as bags, denim, Home Furnishing, etc.

NA-10UT is suited to the sewing and decorative shape-tacking of heavy-weight materials such as bags, denim, home furnishing, and leather garments, etc.

## Features

### LED Light

Standard equipped with LED light to illuminate the hand of the needle. The work efficiency of the operator is improved.

### Feeding mechanism

The machine's powerful bottom feed demonstrates its performance when sewing heavy fabric. The lift of the presser foot is as high as 13mm, which responds to the sewing of bulky materials.

### Horizontal-axis full-rotary double-capacity hook

The adoption of the horizontal-axis double-capacity hook helps reduce the frequency of bobbin thread replacement, thereby promising sewing work with efficiency. This hook is also helpful not only when sewing with thick thread but also when sewing a long seam length.

### Mechanism of Automatic thread trimmer

The Automatic thread trimmer achieves consistent thread trimmer regardless of thickness of the thread, i.e., from thin to thick thread. The machine has adopted the rotary thread trimming mechanism which matches, in particular, design stitch with thick thread. The automatic thread trimmer improves workability and increases productivity. When compared with the sewing machine without a thread trimmer, NA-10UT substantially decreases the consumption of thread.
