

L-1

Direct-drive, 1-needle, Lockstitch Machine

Energy-saving servomotor is installed in the direct-drive style.

Operation panel and control box are integrated with the machine head

The sewing machine has been integrated with the operation panel and the control box for ease of use. All of the L-1 series adopt the direct drive system. As a result, the sewing machine starts up swiftly and promises increased stop accuracy, thereby demonstrating improved thereby demonstrating improved responsiveness.

● Operation panel

The operation panel has a simple design such as switching the vertical position of the needle and setting the maximum sewing speed.

● Direct-drive type

Since the sewing machine has no V-belt, the operator needs neither to clean up shavings from the V-belt, nor adjust the V-belt tension.

● USB port

The L-1 Series is equipped as standard with a USB port that can be used to charge smartphones, etc.

USB port

LED hand light

The LED light is located on the underside of the arm jaw. It reduces operator fatigue and improves work efficiency. It is provided as standard for all models of the L-1 Series.
